

Radar motion detector lamp

General information

This light sensor is an active motion detector which emits high-frequency electro-magnetic waves (5.8 GHz) and receives their echo. The sensor detects even the slightest movement in the adjustable detection zone. A microprocessor triggers the "switch light ON" command. Detection is possible through doors, panes of glass or thin walls.

Sales information

Order code: **EL-PIRLA80**
 Product description: Radar motion detector lamp
 Packaging: Giftbox
 Brand name: HQ

Quantity	LxWxH (mm)	Weight
1	320x125x320	1615 gr.
4	335x350x520	6840 gr.
